BINGO EVOLUTION

// SILVER & SOFT

The proven **BINGO Evolution** convinces in modern design:

The four new upholstery colours **Turquoise Soft**, **Berry Soft**, **Gray Soft** and **Black** are optimally complemented thanks to an urban, timeless chassis in bright **Silver**. The **BINGO Evolution** looks lighter and fresher.

With the new upholstery collection „**Soft**“, which is made from **100% recycled resources**, we are setting new standards at HOGGI on the **sustainability** issue.

The upholstery in Turquoise, Berry and Gray stand out by a mottled surface, whereby the colours appear „softer“.

Another visual highlight are the **side panels** and **springs** in Turquoise, Pink, Silver or Black matching the upholstery colour.

The **BINGO Evolution** convinces with the proven technical properties like 45 ° tilt in space, compact folding size, individual adjustment options or enormous growth capacity.

// Turquoise Soft

// Berry Soft

// Gray Soft

// Black
